12th September 2022

Dear Parents / Carers

Additional INSET day Friday 21st October 2022

Unfortunately, due to a family bereavement in the summer holidays, our trainer could not lead the staff training planned for Friday 2nd September. We did do additional staff training on that day instead. The planned training is focused on immersing children in a class text, for enjoyment and also challenge. It is also focused on how we plan reading comprehension lessons that enable lots of children to achieve greater depth in their reading skills.

The focus on reading comprehension will be of a huge benefit to your children in accessing all of the curriculum and becoming High School ready. It has had a significant impact in other Trust schools for their children and of course we aspire to do even better for your children.

Therefore, our Trust has authorised an additional training day on **Friday 21st October**. apologise for the inconvenience caused by this closure day; it is a date which we thought would be least disruptive as it is just before half-term.

Kind regards,

Mr. Matthew Jordan
Executive Headteacher
